Iqbal Town, Islamabad, Pakistan.

<https://sharoon.vercel.app>

Passionate and self-motivated Full-Stack Developer, skilled in building scalable web applications, integrating APIs, and optimizing user experiences. Eager to apply my knowledge in a dynamic environment, contribute to real-world projects, and continuously grow as a developer. Open to opportunities that challenge my problem-solving skills and allow me to explore new technologies

WORK EXPERIENCE

ANIMADOM

Co-Developer

- Developed an anime discovery platform using Next.js and the Jikan API, enabling users to explore detailed anime information efficiently.
- Designed a modern and responsive user interface with Tailwind CSS, ensuring an intuitive and seamless browsing experience.
- Integrated Motion.js animations to enhance visual engagement and implemented server-side rendering (SSR) for improved performance and SEO optimization.

SAMURAI SYSTEMS

Developer

- Designed and developed a landing page for a cybersecurity firm using Next.js and Tailwind CSS, focusing on performance, clarity, and brand presence.
- Integrated GSAP animations to create dynamic transitions and interactive elements, enhancing user engagement and visual appeal.
- Ensured a fully responsive design optimized for various screen sizes while maintaining a professional aesthetic.
